Dated: 21.05.2023

Dear Candidate,

I am pleased to inform you that you have qualified for Junior Research Fellowship (JRF) and eligibility for Assistant Professor in the National Eligibility Test (UGC-NET) conducted for December 2022. <u>NOTE</u>

- 1. Candidates who participated in XAT 2024 can access and download their scorecards until December 31, 2024.
- 2. "Quantitative Aptitude and Data Interpretation," "Verbal Ability and Logical Reasoning," and "Decision Making" percentiles represent your relative ranking among all the candidates who took these sections. Your percentile score shows where you stand compared to others in these specific areas.
- 3. The total percentile, on the other hand, reflects your overall performance in the XAT 2024 exam. It ranks you among all the candidates who appeared for the exam, considering your performance across all sections except General Knowledge. It's crucial to note that General Knowledge percentage and percentile are calculated separately from the other sections. These GK scores do not contribute to your overall "total" percentage or percentile. They are evaluated independently.
- 4. A candidate's performance in XAT is just one of the multiple factors considered when evaluating their eligibility for admission to XLRI or any other XAT member institutes. Each institute, following its unique policies and criteria, independently determines how to utilize XAT Scores in the admission process.
- 5. It is recommended that XAT Scores be used by institutions only for selecting candidates to their Post Graduate / Fellow Programme (s) in Management.

- 1. The Management Aptitude Test (MAT) is designed to measure the aptitude of a candidate for pursuing management education and should be used only for this purpose.
- 2. MAT is administered in five sections-Language Comprehension, Mathematical Skills, Data Analysis & Sufficiency, Intelligence & Critical Reasoning and Indian & Global Environment-each section testing a different ability relevant for management education.
- 3. All MAT administrations necessarily have different questions. Thus one administration may be slightly more difficult or less difficult than another. Scaling has been used to take care of these differences.
- 4. The scaled scores reported are standardised scores for respective sections. These scores are reported on a scale of 0 to 100. Extreme scores (below 15 or above 85) are rare.
- 5. The percentile below column indicates the percentage of candidates in the test who scored below that of the candidate in the section.
- 6. The Composite score is an overall scaled score based on the first four sections of MAT. This is reported on a scale of 199 to 801.
- 7. The percentile below for the Composite Score represents the percentage of candidates whose composite scores are below the candidate's. The composite score has a validity period of one year.
- 8. All scores and percentile below figures are reported after rounding off to the nearest whole number.
- 9. Personal data is as reported by the candidate.
- 10. The AIMA has taken due care while uploading the Score Card. However, in case of any inadvertent error, the AIMA reserves the right to rectify the same at a later stage.
- 11. Normalised scores across multi session papers are based on the relative performance of all those who appeared for the examination. The raw marks obtained are transformed into Normalised Score. For detailed procedure on Normalised Score , please visit website https://resources.aima.in/event-uploaded-file/mat-score-and-its-interpretation.pdf

- 1. The Management Aptitude Test (MAT) is designed to measure the aptitude of a candidate for pursuing management education and should be used only for this purpose.
- 2. MAT is administered in five sections-Language Comprehension, Mathematical Skills, Data Analysis & Sufficiency, Intelligence & Critical Reasoning and Indian & Global Environment-each section testing a different ability relevant for management education.
- 3. All MAT administrations necessarily have different questions. Thus one administration may be slightly more difficult or less difficult than another. Scaling has been used to take care of these differences.
- 4. The scaled scores reported are standardised scores for respective sections. These scores are reported on a scale of 0 to 100. Extreme scores (below 15 or above 85) are rare.
- 5. The percentile below column indicates the percentage of candidates in the test who scored below that of the candidate in the section.
- 6. The Composite score is an overall scaled score based on the first four sections of MAT. This is reported on a scale of 199 to 801.
- 7. The percentile below for the Composite Score represents the percentage of candidates whose composite scores are below the candidate's. The composite score has a validity period of one year.
- 8. All scores and percentile below figures are reported after rounding off to the nearest whole number.
- 9. Personal data is as reported by the candidate.
- 10. The AIMA has taken due care while uploading the Score Card. However, in case of any inadvertent error, the AIMA reserves the right to rectify the same at a later stage.
- 11. Normalised scores across multi session papers are based on the relative performance of all those who appeared for the examination. The raw marks obtained are transformed into Normalised Score. Management Aptitude Test and Test Scores

- The Management Aptitude Test (MAT) is designed to measure the aptitude of a candidate for pursuing management education and should 1. be used only for this purpose.
- MAT is administered in five sections-Language Comprehension, Mathematical Skills, Data Analysis & Sufficiency, Intelligence & Critical 2. Reasoning and Indian & Global Environment-each section testing a different ability relevant for management education.
- All MAT administrations necessarily have different questions. Thus one administration may be slightly more difficult or less difficult than 3. another. Scaling has been used to take care of these differences.
- The scaled scores reported are standardised scores for respective sections. These scores are reported on a scale of 0 to 100. Extreme 4. scores (below 15 or above 85) are rare.
- The percentile below column indicates the percentage of candidates in the test who scored below that of the candidate in the section. 5.
- The Composite score is an overall scaled score based on the first four sections of MAT. This is reported on a scale of 199 to 801. 6.
- The percentile below for the Composite Score represents the percentage of candidates whose composite scores are below the 7. candidate's. The composite score has a validity period of one year.
- 8. All scores and percentile below figures are reported after rounding off to the nearest whole number.
- 9. Personal data is as reported by the candidate.
- 10. The AIMA has taken due care while uploading the Score Card. However, in case of any inadvertent error, the AIMA reserves the right to rectify the same at a later stage.
- 11. Normalised scores across multi session papers are based on the relative performance of all those who appeared for the examination. The raw marks obtained are transformed into Normalised Score. For detailed procedure on Normalised Score , please visit website https://resources.aima.in/event-uploaded-file/mat-score-and-its-interpretation.pdf
