About MCCRC

Since the inception of NIRF ranking, academic institutions urge their faculty members to come up with research publications and patents. This predicament forces some faculty members to publish their papers in predatory journals. To address this issue, our faculty were desperately in need of awareness on research methodology and research metrics. About twenty-five faculty members from across academic domains in Madras Christian College met in an informal forum with an aim to deliberate on the nuances of research methodology in digital dispensation during the Covid-19 pandemic situation through virtual platform. This informal act of discussions accompanied by lectures among peers gave way to the formation of Madras Christian College Research Colloquium (MCCRC), a formalized virtual Community Learning on the campus during the lockdown, paving the way for capacity building among faculty group that is heterogenous in nature.

The scope of MCCRC is to

- (i) Equip each other by enriching the research skills*
- (ii) Expand interdisciplinary collaborations across the departments*
- (iii) Redefining pedagogy through research-based methods*
- (iv) Brainstorm domain specific administrative issues through crowd resourcing*
- (v) Solicit innovative ideations from students as human resource*

What participants say about our FDPs

from our feedback...

The organization of the FDP was foolproof. Every factor including the time, time management, syllabus, relevant topics, clarity in presentation, selection of experts, degree of explanation, provision of assignments, addressing of questions raised in the feedback form, and reply to the queries, everything was nicely done.

About our Speakers

All the resource persons are equipped with relevant information and effectively presented their insights during the discussion.

About our Sessions

I loved the practical approach taken in the pedagogy. Live demonstrations and practical skill based assignments that require us to actually use the various tools taught about, all were unique aspects. Also the extremely experienced resource people were so patient taking things in as slow a pace as possible given the time constraints, which is no small feat. Appreciate everyone's efforts!!!

Topics that are covered. I came to know many new things. Each day I learnt something new. I shared the knowledge gained with my students also.

An effective blend of theoretical concepts and practical demonstration, along with the assignment to evaluate our comprehensive understanding.

About our Assignments

The FDP was insightful and engaging. Though it was a hectic experience, I personally enjoyed it, as it encouraged deeper learning through assignments and helped us refine our understanding.

About doubt clarifying Sessions

Yes, I attended the doubt clarifying session and found it extremely helpful. The informal interactions allowed for open discussions and enabled me to clarify my doubts and gain a deeper understanding of the topics. The resource persons were approachable, patient, and provided valuable insights, making the session highly productive and beneficial."

The unique feature of the FDP was its comprehensive approach, covering essential research concepts such as methodology, article writing, publication strategies, and plagiarism awareness, all tailored to equip researchers with practical skills and in-depth knowledge in a short timeframe.
