About MCC Research Colloquium

Since the inception of NIRF ranking, academic institutions urge their faculty members to come up with research publications and patents. This predicament forces some faculty members to publish their papers in predatory journals. To address this issue, our faculty were desperately in need of awareness on research methodology and research metrics. About twenty-five faculty members from across academic domains in Madras Christian College met in an informal forum with an aim to deliberate on the nuances of research methodology in digital dispensation during the Covid-19 pandemic situation through virtual platform. This informal act of discussions accompanied by lectures among peers gave way to the formation of Madras Christian College Research Colloquium (MCCRC), a formalized virtual Community Learning on the campus during the lockdown, paving the way for capacity building among faculty group that is heterogenous in nature. Highlights

- Experienced Speakers
- Daily Assignments
- Assignments will be graded
- Interactive Sessions
- Engaging Q&A part
- Doubt Clarifying Session
- Upskilling of Data Analysis
- Live demonstrations
- Reading Materials in GCR

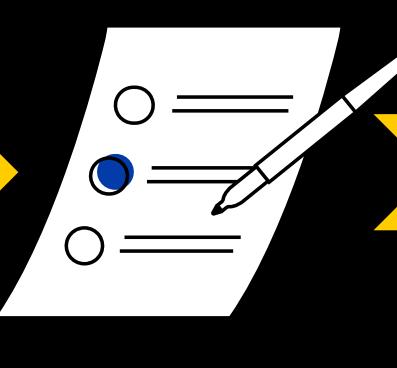

Instructions to the participants

- The meeting link will be sent to the registered email ids.
- The sessions will be highly intensive.
- To be eligible for the certificate, participants must submit 60% of the assignments and maintain a minimum of 80% attendance.
- Materials will be provided and recordings will be shared with 30 days access.
- Participants can join at 6.45pm for doubt clarifying session

What our participants say about our FDPs

from the feedback...

The best part of this FDP was that each day focused on one clear topic related to research writing. It didn't feel confusing or too much at once. Instead, it felt like learning step by step, just like building something from the foundation upward. By the end, everything made sense and felt complete. This simple and organized approach made the FDP very effective.

About our Speakers

All the resource persons are equipped with relevant information and effectively presented their insights during the discussion.

About our Sessions

The program thoughtfully covers all key components of scholarly publishing, including structuring IMRD sections, strengthening titles and abstracts, developing a critical literature review, designing effective data visualization, and ensuring ethical writing with proper referencing. This systematic, step-by-step format ensures that learning remains hands-on rather than theoretical, making the FDP engaging, skill-focused, and easy to implement in real manuscript preparation.

The unique feature of the 6-Day Faculty Development Program (FDP) is its comprehensive approach, which blends expert-led lectures, interactive discussions.

The communication and interaction with the speaker and the audience were very effective, especially taking time out of the formal session to clarify doubts and questions of the previous session.

About our Assignments

The FDP was insightful and engaging. Though it was a hectic experience, I personally enjoyed it, as it encouraged deeper learning through assignments and helped us refine our understanding.

About doubt clarifying Sessions

I was happy in terms of the way that the experts are dealing with me during informal interactions. Answered all my doubts with at most care. Every doubt and clarification requested by the participants were cleared with calmness and patience

The best part of this FDP was that each day focused on one clear topic related to research writing. I felt like learning step by step, just like building something from the foundation upward. By the end, everything made sense and felt complete. This simple and organized approach made the FDP very effective.
