

Commenced in 2001, the Department of Computer Application envisions imparting high eminence skills in software Development to excel in Software Industry and to train the students to develop the soft skills with global standards and enhance their knowledge in Information Technology. The department aims to develop academically competent and professionally motivated persons, equipped with objective and critical thinking that compassionately foster the scientific temper with a sense of social responsibility.

The Department aims at providing high quality training to students through the latest in computer technology. In order to maintain the standard of education, the department constantly upgrades the academic syllabi so as to keep the students well trained to deal with changing trends in the field of Computer Science and Technology. The syllabi and courseware are planned to be flexible and wide-ranging, incorporating the cutting edge as well as ensuring a firm grasp of core fundamentals.

The department has a good record, as many students have been placed well in good IT Companies through campus placement. The curriculum and the lab training help the students in acquiring excellence in their career.
